

Andy Xie

Independent
China & Asia Economist

A talented economist who was one of the few to have accurately predicted a series of economic bubbles. Straight-talking, prepared to speak his mind.

Dr Andy Xie

his background

Xie Guo Zhong is a **renowned, independent, Shanghai-based economist** specialising in China and Asia. He is currently a director of Rosetta Stone Advisors and also China Boqi Environmental Science and Technology. He is a regular **columnist** for *Cai Xin*, the *South China Morning Post* and *New Century Weekly*.

Dr Xie is one of the few economists who has accurately **predicted economic bubbles** including the 1997 Asian Financial Crisis , the dotcome bubble (1999) and the more recent subprime meltdown in the United States that led to the financial crisis (2008).

In 2013 he was named '**one of the 50 most influential persons in global finance**' by Bloomberg.

He was voted the number one economist in Asia between 2000 and 2006 by Institutional Investor Magazine and was selected by CCTV and the World Economic Forum as one of ten future economic leaders in China.
